INDIANA COLLECTION

Franklin School is now completing its first year as a junior high school. From a school having grades one through eight, it has now become a school having grades seven, eight, and nine. Many changes and adjustments have had to be made. The building itself has been remodeled to make a more pleasing atmosphere in which to work. Students, faculty, and staff have worked together to make this first year a memorable year.

This is also the first year that Franklin School has had a yearbook. Its name, **THE KITE 'N KEY**, represents our future hopes. The Kite tells of our desire for learning and achieving. The Key opens the door to memories of things which occurred here in the past.

This, then, is your school; and this is your yearbook, **THE KITE 'N KEY**.

Latin students have become familiar with Roman customs. Here two students are studying a Roman calendar and are dressed in authentic togas.

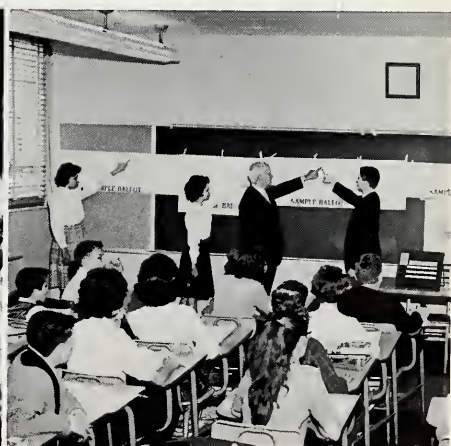

English students discover the people of mythology, the gods and goddesses. The names of these characters are difficult to spell, but their feats are very interesting to study.

Here We Learn To Study, Meet New Friends . . .

The break between classes is a popular meeting and greeting time. Although the opening of lockers adds to the noise and confusion, friends and classmates still find time to visit.

Students in social studies learn the history of our democratic elections as well as how these elections have influenced our nation and world.

Science projects require time, thought, and thoroughness. Some of these projects, displayed in the showcase, are observed by interested students.

Working to build pyramids requires precision and steadiness, but also an enjoyable activity of physical education classes.

We Learn To Work Together . . .

These friendly faces and busy hands greet Franklin students each noon. They know the way to a student's heart.

Skill, patience, and imagination help students create interesting artistic figures in art classes.

Administration—Key to Franklin's Organization

1373397

Mr. Plasket, our principal, has helped us greatly this year to adjust to our new school. He has led and aided us in keeping the reputation of our school as high as it has been in past years.

Mr. Mathias, our staff assistant, has performed many of the tasks necessary to make our school run smoothly. He has also counseled many of the students. We appreciate the help and guidance which he has given us this year.

These People Help Franklin Junior High Run Efficiently

Our two office secretaries, Mrs. Pelz and Mrs. Werling, assist the faculty and the students in many ways. They are always on hand to answer the many questions which we ask. We appreciate the services they render.

The cafeteria workers and the janitorial staff have helped to make this year a more pleasant one. The cafeteria staff has provided excellent lunches for us and the janitorial staff has kept our school neat and clean.
